

RESINS PRODUCT GUIDE FOR PAINTS AND COATINGS

Lubrizol

Performance Coatings

www.lubrizol.com/coatings

ENABLING CUSTOMER SUCCESS

Industry Knowledge

With an experienced team of coating, ink, and composite specialists, Lubrizol is dedicated to close collaboration with customers and industry experts to gain and share industry knowledge, insights, and solutions.

Technical Support

Lubrizol staffs fully-equipped labs in Europe, North America, Latin America and Asia to bring regional formulation capabilities and support to customers, wherever they are in the world.

Quality

From product development to production and distribution, we carefully control all processes to ensure the quality of our products and to enable customers to gain a competitive edge.

Innovative Solutions

Lubrizol invests in market-driven innovation to address relevant and timely coatings challenges and opportunities for customers.

On-Time Delivery

Product availability and on-time delivery are vital to any business. To answer these needs, Lubrizol has a worldwide network of distribution points. This comprehensive network provides immediate access to customer service.

Wood Coatings

Lubrizol has the key ingredients to improve many wood coating formulations. With a wide variety of resin technologies for residential and commercial applications, we help formulators meet performance and aesthetic preferences while maintaining regulatory requirements and sustainability targets.

Building and Construction Coatings

Lubrizol specialty chemical solutions deliver value for coatings manufacturers, architects, builders, and building owners. Our advanced portfolio of resins and polymers are commonly used in masonry coating, concrete coating, elastomeric coating, liquid roof coating, mortar modification and other building and construction coating products to beautify and strengthen a diverse range of interior and exterior surfaces. With advanced Lubrizol technologies, formulators can improve coating performance and production efficiency. Contractors and architects can shorten construction schedules and reduce labor costs. Property owners will enjoy long-lasting, visually appealing surfaces.

Industrial Coatings

Lubrizol innovates technologies for a variety of industrial metal coating applications. Our resin technologies enhance key performance attributes, imparting superior corrosion resistance, scratch and mar resistance and improved overall performance. Lubrizol offers primer, topcoat and direct-to-metal resin technologies that offer a superior balance of durability and gloss.

Transportation Coatings

Lubrizol innovates cutting-edge chemical solutions for automotive OEM and vehicle refinish applications, such as interior, exterior and underbody coating technologies. We address the challenges that face coating manufacturers, automotive manufacturers and consumers, providing customized solutions and value-added, long-lasting coatings. Our technologies help formulators meet the functionality needs of the most demanding transportation coatings.

Wood Coating Technologies

Acrylic Technologies for Wood Coatings

Lubrizol Product	Polymer Type	Key Benefits
Carboaset® 2951	Self-Crosslinking Acrylic Copolymer Emulsion	Low VOC, exceptional chemical and block resistance, early hardness and external durability also suitable for use in eco-label paints and coatings.
Carboaset® 2968	Self-Crosslinking Acrylic Emulsion	Early hardness, sandability with superior chemical resistance; blend vehicle with polyurethanes.
Carboaset® 7722	Acrylic Emulsion	Low VOC, adhesion, stain blocking and scrub resistance in all sheens.
Carboaset® 7733	Acrylic Emulsion	Low VOC, exterior durability and scrub resistance in high gloss formulations
Carboaset® AMO 400	Acrylic Oil Modified Copolymer	Renewable, low VOC, high melt temperature for high speed sanding, improved toughness, black heel mark and abrasion resistance; blend vehicle with other resins (47% bio-based content).
Carboaset® CR 726	Self-Crosslinking Acrylic Emulsion	Early hardness development and chemical resistance.
Carboaset® CR 7181	Self-Crosslinking Acrylic Emulsion	Hard, excellent chemical resistance, air and forced dry compatible; adhesion to wood, metal and plastic.
Carboaset® 3142	Styrene Acrylic Emulsion	Low VOC, high gloss, exceptional block and chemical resistance, multi-substrate adhesion, exterior durability; alkyd-like application.
Carboaset® CA 7147	Acrylic Emulsion	High gloss, fine particle size, fast drying, non-yellowing, water, weather, and dirt pick-up resistant.

Polyurethane Dispersion Technologies for Wood Coatings

Lubrizol Product	Polymer Type	Key Benefits
Aptalon™ W8060	Self-Crosslinking Polyurethane Dispersion - Polyamide	Renewable, superior chemical resistance, balance of hardness, abrasion and scratch resistance (35% bio-based content).
Aptalon™ W8030	Self-Matting Polyurethane Dispersion - Polyamide	Low gloss without matting agents and excellent abrasion resistance.
Sancure™ 970	Polyurethane Dispersion - Polyester	Adhesion to multiple substrates, excellent hardness and chemical resistance, crosslinkable.
Turboset™ 2027	Self-Crosslinking Polyurethane Dispersion - Polyester	Excellent chemical and stain resistance.
Turboset™ Ultra Eco	Self-Crosslinking Polyurethane Dispersion - Polyether	Low VOC, robust black heel mark resistance, excellent hardness and chemical resistance.
Turboset™ 5000HS	Self-Crosslinking Polyurethane Dispersion - Polyether	High solids (50%), TEA-free and low VOC. Excellent hardness and chemical resistance.
Sancure™ AU 4050	Self-Crosslinking Acrylic/Polyester Polyurethane Hybrid Dispersion	Non-yellowing, excellent chemical, abrasion and scuff resistance.
Sancure™ 942	Polyurethane Dispersion - Polyester	Crosslinkable polyurethane, excellent balance of properties, high durability.

Applications												
Lubrizol Product	Floors	Cabinets	Furniture	Windows and Doors	Interior Trims and Primers	Stains	MFFT (°C)	% Weight Solids	% Volume Solids	pH	Viscosity (CPS)	Specific Gravity
Carbozet® 2951		•	•	•	•	•	<5	44	43	8	30 - 250	1.01
Carbozet® 2968	•	•	•				57	41.5	39	7.5	10 - 300	1.04

Building and Construction Coating Technologies

Acrylic Technologies for Building and Construction Coatings		
Lubrizol Product	Polymer Type	Key Benefits
Carbaset® 2951	Self-Crosslinking Acrylic Copolymer Emulsion	Low VOC, exceptional chemical and block resistance, early hardness.
Carbaset® 2968	Self-Crosslinking Acrylic Emulsion	Robust water resistance, high hardness, outstanding gloss/wet look, excellent chemical and mar resistance.
Carbaset® 7722	Acrylic Emulsion	Low VOC, good scrub resistance, early block and print resistance, pigmentable.
Carbaset® 7733	Acrylic Emulsion	Low VOC, high gloss, inherent stain removal and washability, early block resistance and great flow and leveling.
Carbaset® AE 960*	Acrylic Emulsion	Low VOC, excellent dirt pick-up, balance of elongation and tensile strength, outstanding water resistance, weathering and crack-bridging; suitable for ASTM D6083 compliant paints and coatings.
Carbaset® CA 7147	Acrylic Emulsion	Low VOC, small particle size, alkali resistance, high water vapor permeability and low CO ₂ permeability.
Carbaset® CA 7107	Acrylic Emulsion	Low VOC, excellent water, alkali and weathering resistance.
Carbaset® CA 7100RC	Styrene Acrylic Emulsion	Low VOC, balance of mechanical properties, excellent adhesion to most masonry substrates at high PVC loading, water and alkali resistance.
Carbaset® CA 7160RC	Styrene Acrylic Emulsion	Low VOC, alkali resistant, excellent adhesion to most masonry substrates at high PVC loading.
Carbaset® CA 7120RC	Styrene Acrylic Emulsion	Low VOC, excellent water, alkali and dirt pick-up resistance, balance of elasticity and tensile strength. Great adhesion to most masonry substrates including terracotta tiles.
Carbaset® CR 7185	Acrylic Emulsion	Excellent water retention, concrete curing properties and high alkali resistance.
Carbaset® CA 600*	Self-crosslinking Acrylic Emulsion	Early water resistance, fast drying, great substrate penetration, alkaline, blushing, efflorescence, chemical resistance, non-yellowing and exterior exposure.
Carbaset® CA 1009*	Acrylic-Polyurethane Polymer	Low VOC, minimal water uptake and capillary absorption, superior water and bitumen bleed through resistance, excellent exterior durability and heat stable.
Carbaset® RPT 2000A	Acrylic Copolymer Emulsion	Low VOC, superior adhesion to wide range of substrates and great bitumen bleed through resistance.
Carbaset® RPT 3030	Acrylic Emulsion	Low VOC, excellent low temperature elasticity, ASTM D6083 compliance capable, and adhesion to EPDM.
Carbaset® SA 850*	Acrylic Copolymer Emulsion	Low VOC, robust crack-bridging performance and weatherability, resistant to chalking, fading, and water penetration, excellent dirt pick-up, efflorescence, alkali properties.
Carbaset® 3142	Styrene Acrylic Emulsion	Low VOC, high gloss coatings, exterior durability, good block and stain resistance, multi-substrate adhesion; alkyd-like application.
Carbaset® PL 958*	Acrylic Emulsion	Low VOC, high tensile strength for clear and pigmented temporary protection and excellent chemical resistance. Peelable coatings.
Carbotac® 1811	Acrylic Emulsion	Low VOC, long open time polymer for bonding bridge masonry applications.

Building and Construction Coating Technologies

Polyurethane Dispersion Technologies for Building and Construction Coatings

Lubrizol Product	Polymer Type	Key Benefits
Aptalon™ W8030	Self-Matting Polyurethane Dispersion - Polyamide	Low gloss without matting agents and excellent abrasion resistance.
Aptalon™ W8060	Self-Crosslinking Polyurethane Dispersion - Polyamide	Renewable, superior chemical resistance, balance of hardness and abrasion resistance and scratch resistance (35% bio-based content).
Aptalon™ M8120	Self-Crosslinking Polyurethane Dispersion - Polyamide	Renewable. Balance of hardness and abrasion resistance, superior chemical and hydrolytic resistance (35% bio-based content).
Sancure™ 20041	Polyurethane Dispersion - Polyester	Cosolvent-free, excellent hardness, compatible with acrylics; crosslinkable.
Sancure™ 861	Polyurethane Dispersion - Polyether	Low VOC, cosolvent-free, hydrolytic and aging stability, alkali, abrasion and chemical resistance.
Sancure™ 20025F	Aliphatic Polyurethane Dispersion - Polyester	Low VOC, provides enhanced durability when blended with acrylics.
Sancure™ 942	Polyurethane Dispersion - Polyester	Chemical and abrasion resistance, crosslinkable if necessary to boost performance.
Sancure™ 970	High Solids Polyurethane Dispersion - Polyester	Chemical and abrasion resistance; crosslinkable.
Sancure™ AU4050	Self-Crosslinking Acrylic/ Polyester Polyurethane Hybrid Dispersion	Non-yellowing, excellent chemical, abrasion and scuff resistance.
TurboSet™ Ultra Eco	Self-Crosslinking Polyurethane Dispersion - Polyether	Low VOC, superior black heel mark resistance, excellent hardness and chemical resistance. Excellent alkali and hydrolysis resistance
TurboSet™ 2027	Self-Crosslinking Polyurethane Dispersion - Polyester	Cosolvent-free, excellent chemical resistance and durability.
TurboSet™ 5000HS	High Solids, Self-Crosslinking Polyurethane Dispersion - Polyether	Low VOC, TEA-free and high solids, reduce the number of layers applied while maintaining superior chemical and abrasion resistance.

Solution Acrylic Technologies for Building and Construction Coatings

Lubrizol Product	Polymer Type	Key Benefits
Doresco® L91-1X	Solvent-borne Acrylic Polymer in Xylene	Hard solvent-borne acrylic designed for general purpose concrete coating.
Doresco® M6A	Solvent-borne Thermoplastic Acrylic in Xylene	Exterior durability and adhesion to multiple substrates.
Doresco® T5T60	Solvent-borne Thermoplastic Acrylic in Toluene	Quick drying road-marking for medium traffic areas; internally plasticized version of Doresco® T6T.

	Applications								
Lubrizon Product	Liquid Roof	Vertical Masonry	Horizontal Masonry	MFFT (°C)	% Weight Solids	% Volume Solids	pH	Viscosity (CPS)	Specific Gravity
Aptalon™ W8030			•	61	35	33	8	<500	1.03

Industrial Coating Technologies

Acrylic and PVDC Technologies for Industrial Coatings

Lubrizol Product	Polymer Type	Key Benefits
Carbozet® 514*	Alkali Strippable Acrylic Dispersion	High gloss, fast drying, excellent hardness and adhesion.
Carbozet® 560	Alkali Strippable Acrylic Dispersion	Water and UV resistance, excellent mechanical stability and adhesion.
Carbozet® 441	Peelable Acrylic Emulsion	Balance of adhesion and cohesion for strippability, excellent toughness and durability.
Carbozet® CR 3090*	Styrene Acrylic Emulsion	Great corrosion and weathering resistance; adhesion to CRS, phosphated and galvanized steel.
Carbozet® CR 7185	Acrylic Emulsion	Fast dry, resistant to gas, solvents, impact, water and humidity; adhesion to phosphated and stainless steel.
Carbozet® CR 765*	Styrene Acrylic Emulsion	Balance of performance properties, high gloss, water and humidity resistance, reactive pigment stability; adhesion to CRS, phosphated, aluminum, copper, stainless steel.
Carbozet® PL 958*	Peelable Acrylic Copolymer Emulsion	Low VOC, high elasticity, solvent and breaking resistance.
Carbozet® CR 7162E	Styrene Acrylic Emulsion	Air and force dry, gloss and semi-gloss, corrosion and humidity resistance; adhesion to plastic, metal and masonry.
Carbozet® 3142	Styrene Acrylic Emulsion	Gloss and semi-gloss, wet adhesion, block and sag resistance, interior and exterior architectural; alkyd like application.
Permax™ 805	PVDC Emulsion	Low VOC, humidity resistant, increased shelf-life and in-can stability; adhesion to aluminum, CRS, Bonderite 1000, ground and galvanized steel.
Permax™ 805B	PVDC Emulsion	Low VOC, small particle size, low MVTR, excellent corrosion resistance and durability; adhesion to aluminum, CRS, ground and galvanized steel, potable water applications.

*Produced in multiple facilities; product name may vary

Polyurethane Technologies for Industrial Coatings

Lubrizol Product	Polymer Type	Key Benefits
Aptalon™ M8120	Self-Crosslinking Polyurethane Dispersion - Polyamide	Excellent adhesion to metal surfaces, extraordinary hardness and durability in a 1k WB DTM, outstanding chemical and corrosion resistance. (37% bio-based content).
Aptalon™ W8030	Self-Matting Polyurethane Dispersion - Polyamide	Low gloss without matting agents and excellent abrasion resistance
Sancure™ 970	Polyurethane Composite - Polyester	Great chemical, abrasion, and alkali resistance, crosslinkable; adhesion to ferrous and non-ferrous metals.

*Produced in multiple facilities; product name may vary

Lubrizol Performance Coatings is a market-driven innovator of specialty chemicals for coatings, inks and composites. Our portfolio of resin, binder, dispersant, wax additive and specialty additive technologies solves challenges across a wide range of markets and applications. Formulators choose Lubrizol to benefit from our innovative technologies, customer collaboration and global reliability. More than just a supplier, we are a valued partner with extensive experience in surface protection, dispersion, adhesion and barrier properties. We work closely with customers to enhance the performance, productivity and sustainability benefits of their products and drive new opportunities for market success.
