

**FBC<sup>TM</sup> Building Solutions** of The Lubrizol Corporation is a single-source provider of polymer technologies designed to solve some of today's toughest building challenges. As a global leader in the development of piping solutions for residential, commercial and industrial applications, we have an unmatched reputation for technological innovation designed to enhance the performance level of our various products.

Although FBC Building Solutions is named for the company's core brands (FlowGuard Gold,<sup>®</sup> BlazeMaster<sup>®</sup> and Corzan<sup>®</sup> pipe and fittings), we have expanded our product portfolio over the years to also include non-piping solutions that are critical to the building industry. This includes industrial sheet and lining, formulations that improve the performance of various exterior cladding and fencing materials, and custom fabrication.

As the inventor of chlorinated polyvinyl chloride (CPVC), we possess extensive experience, as well as a solid reputation for consistent quality and customer service. Our network of customer support specialists are able to provide the necessary training and education to help our construction partners choose the best system to fit their needs and successfully provide high-performance, dependable solutions to a wide array of end-users across the globe.

We offer an unparalleled level of experience, proven performance, track record for innovation, product diversity and commitment to customer support. With this unique combination of benefits, it's easy to see why there is no better solution than one from FBC Building Solutions.

To learn more about our products, company history or ways that we can help improve the profitability and reliability of your next project, visit [www.fbcbuildingsolutions.com](http://www.fbcbuildingsolutions.com), or call **888-234-2436** extension 4477393.

### FlowGuard Gold<sup>®</sup> Pipe & Fittings

The most specified non-metallic plumbing system in the U.S.

### FlowGuard<sup>®</sup> MultiPort Manifold

The industry's most versatile plumbing manifold ideal for use with CPVC and PEX in both residential and commercial applications

### FlowGuard<sup>®</sup> Bendable Piping

A cost-effective, easy-to-install composite pipe designed for underslab applications, shower risers and hard-to-reach areas

### BlazeMaster<sup>®</sup> Fire Sprinkler Systems

The most specified non-metallic fire sprinkler system in the world exhibiting outstanding corrosion resistance, low flame spread and low smoke characteristics

### BlazeMaster<sup>®</sup> Multipurpose Systems

A safer, cost-effective multipurpose option code-approved to transition to any approved plumbing system

### Corzan<sup>®</sup> HP Pipe & Fittings

A larger IPS plumbing system ideal for risers and mains in multifamily and commercial buildings

### Corzan<sup>TM</sup> Industrial Systems

Pipe, fittings, valves, sheet and duct made from Corzan CPVC deliver superior resistance to corrosive chemicals, high temperatures and harsh application conditions resulting in longer service life, lower maintenance costs and reduced downtime.

### TempRite<sup>®</sup> HDX220 Technology

An engineered thermoplastic compound for dark-colored exterior cladding and fencing applications designed for superior temperature performance and material stability
