

Proven History

The FlowGuard MultiPort manifold system was developed by Lubrizol Advanced Materials, Inc., the inventor of high-performance FlowGuard Gold® pipe and fittings compounds. Lubrizol is the world leader in CPVC resins and compounds with nearly 50 years of proven experience in advanced technology piping products. The FlowGuard MultiPort manifold system is part of our FBC™ Building Solutions product line that also includes

FlowGuard Gold, BlazeMaster®, Corzan®, FlowGuard™ Flex and FlowGuard® Bendable piping systems.

Solvent cement short tail to additional FlowGuard MultiPort manifolds or to CTS CPVC pipe.

From plumbing to siding to fire sprinkler systems and more...

All the pieces have now come together to solve many of today's toughest building and industrial challenges.

Water Distribution Solution

VERSATILE Manifold System

for use with both PEX and CPVC pipe

Printed in U.S.A.
FGMULTI
February 2008

Design YOUR OWN Manifold System

Transition directly from CTS CPVC pipe or from PEX using a spigot barb adaptor.

Standard-sized ports accommodate CPVC couplings or PEX pipe adaptors.

Long tail can be capped and cut in the future to add ports.

Manifold can be installed vertically or horizontally.

The new **FlowGuard® MultiPort** CPVC manifold system offers a flexible solution for use with both CPVC and PEX piping materials. This patent-pending manifold is available in 1", 1¼", 1½" and 2" sizes for residential and commercial applications and can be installed vertically or horizontally. The FlowGuard MultiPort manifold allows for any number of ports during installation while easily accommodating future expansion.

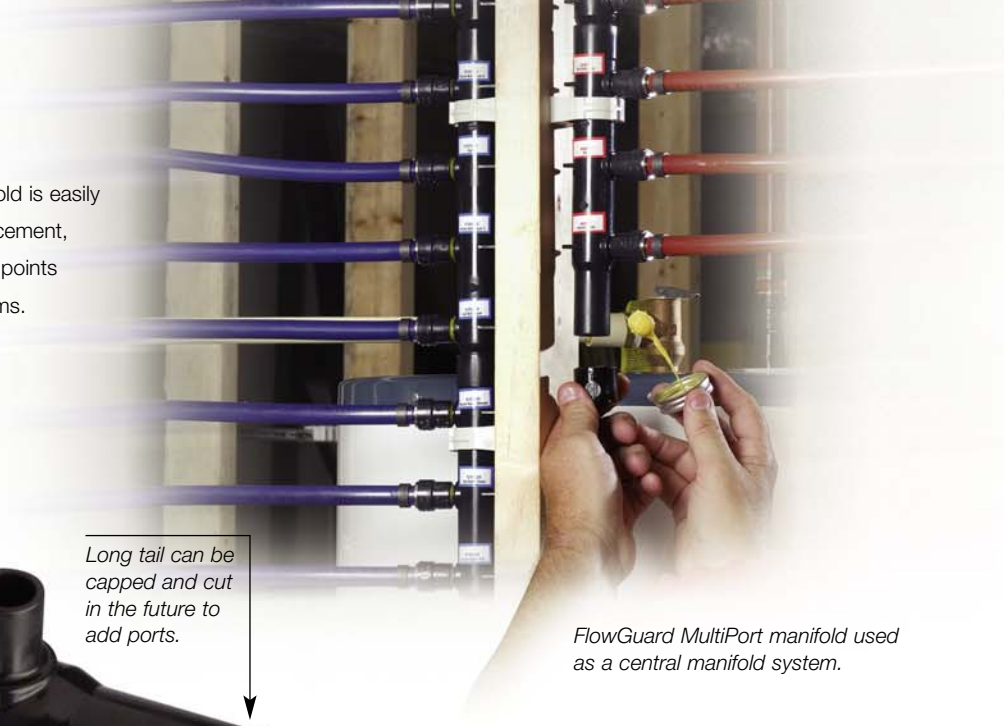

The number of ports used is variable with standard configurations of one, two, three or four ports for 1" CPVC, and two or three ports for 1¼", 1½", and 2" CPVC.

The FlowGuard MultiPort manifold used as a fixture fitting connecting FlowGuard Gold® CPVC pipe and FlowGuard™ Flex PEX pipe.

Installer Friendly

The FlowGuard MultiPort manifold is easily assembled with CPVC solvent cement, eliminating the mechanical leak points present in other manifold systems.

FlowGuard MultiPort manifold used as a central manifold system.

Design Your Own Manifold System

- Buy only the ports needed
- Expand easily in the future

Eliminate Mechanical Leak Points

Use with Both CPVC and PEX Pipe

CPVC adaptors are available to convert to stainless steel or brass crimp barbs for PEX pipe, or to standard fittings for CPVC pipe.
