

## THE LUBRIZOL CORPORATION HEALTH, SAFETY, ENVIRONMENTAL & SECURITY POLICY

Fundamental to our business is protecting our employees and customers, the communities in which we operate, and the environment. Lubrizol is committed to continual improvement of our health, safety, environmental and security performance. We achieve this using systems to identify, evaluate, prioritize and drive mitigation of risks. We set clear, measurable health, safety, environmental (including prevention of pollution), and security goals. We rely on the creativity, innovation, accountability, responsibility and knowledge of our employees to meet these goals using a verifiable systems approach.

Lubrizol conducts its business in an ethical and socially responsible manner in compliance with applicable legal and Responsible Care<sup>®</sup> requirements. We have open dialog with our stakeholders to address concerns, report progress, create understanding and build confidence in our operations and products.
