

TempRite® Engineered Polymers

Lubrizol is the world leader in chlorinated polyvinyl chloride (CPVC) resins and compounds. Our heat-resistant and low-combustibility CPVC specialty plastics have applications in fire sprinkler and plumbing systems, and industrial piping. Today, Lubrizol CPVC compounds are also found in products as diverse as exterior building materials (such as exterior cladding and fencing), industrial systems and even aircraft interiors.

Products and Applications

Our major specialty thermoplastic brands include:

- **FLOWGUARD GOLD®**
Pipe and fittings for residential and commercial water distribution systems
- **BLAZEMASTER®**
Fire sprinkler systems for multi-family, commercial and residential applications
- **CORZAN® and CORZAN® HP**
Piping systems for corrosive and high temperature applications, as well as for water distribution systems
- **TEMPRITE® MATERIAL SOLUTIONS**
Specialty CPVC compounds for use in airplane interiors, window lineals, fencing, exterior cladding and decking

Research, Manufacturing and Sales

The Lubrizol Corporation is geographically diverse, with an extensive global manufacturing, supply chain, technical and commercial infrastructure. Lubrizol owns and operates manufacturing facilities in 17 countries, as well as sales and technical offices around the world.
