

# PRINTRITE™ INK RECEPTIVE COATINGS

Lubrizol

DIGITAL PRINT

## Discontinued - NuCoat DIGITALL and Direct Thermal Technologies

For years, PrintRite™ ink receptive coatings have facilitated the transition from analog to digital printing for textile, film and paper applications. The technology has alleviated unique challenges and delivered differentiated performance, enabling outstanding digital print quality, durability, visual impact and cost benefits.

The PrintRite™ ink receptive coatings product line recently expanded with the purchase of unique chemistry from Nucoat.

After a thorough portfolio review, several former NuCoat products will be discontinued. The table below identifies recommended product replacements for discontinued NuCoat products, if available.
