

Doresco® RA 7346 Solution Acrylic

Acrylic copolymer

Doresco® RA 7346 is a release acrylic copolymer resin which performs well in the manufacture of Hot Stamping Foils. It can provide excellent release on PET and is less affected than natural waxes while performing the necessary embossing functions. Doresco® RA 7346 is a versatile resin for the hot stamp foil/vacuum metallizing industry. As the product is based in ethyl acetate and at high solids provides very good formulation latitude if needed and also avoids the use on aromatic solvents or ketones that are common on natural waxes release coatings.

FEATURES AND BENEFITS

- Release
- Solvent Resistance

CHARACTERISTICS

Characteristic Name	Value
% Weight Solids	35
Brookfield Viscosity (cps)	50
Solvent	Ethyl Acetate

APPLICATIONS

- Packaging Coatings

AVAILABLE REGIONS

- EMEA

RECOMMENDED STORAGE AND RE-TEST DATE

Lubrizol recommends retesting quality after 730 days. See SDS for storage conditions and handling instructions.

REGULATORY STATUS

Please see the product's current material safety data sheet, SDS, for regulatory information. You can request an SDS at www.lubrizol.com/coatings.
