

## At Lubrizol Life Science Health, we serve your full product development lifecycle.

- Lubrizol's integrated Device Design Team consists of highly experienced project managers, design engineers and specialized technicians who work together to rapidly bring concepts to commercialization. Our 35+ engineers and technicians have generated more than 85 patents and boast more than 425 total years of experience.
- As one of the world's largest formulators and manufacturers of medical-grade thermoplastic polyurethane (TPU) polymers, our polymers expertise is unmatched. We provide comprehensive materials-related support, as well as access to our in-house technical, regulatory and compliance experts.
- Lubrizol Life Science Health has provided contract manufacturing exclusively for the global life science industry for nearly 50 years.
- Rigorous standards throughout the development lifecycle help ensure prompt regulatory approvals, ease of manufacturing and, ultimately, consistent product performance at the point of care.

The information contained herein is believed to be reliable, but no representations, guarantees or warranties of any kind are made as to its accuracy, suitability for particular applications or the results to be obtained. The information often is based on laboratory work with small-scale equipment and does not necessarily indicate end-product performance or reproducibility. Formulations presented may not have been tested for stability and should be used only as a suggested starting point. Because of the variations in methods, conditions and equipment used commercially in processing these materials, no warranties or guarantees are made as to the suitability of the products for the applications disclosed. Full-scale testing and end-product performance are the responsibility of the user. Lubrizol Advanced Materials, Inc., shall not be liable for and the customer assumes all risk and liability for any use or handling of any material beyond Lubrizol Advanced Materials, Inc., is any of the Lubrizol Considered as permission, recommendation nor as an inducement to practice any patented invention without permission of the patent owner. Lubrizol Advanced Materials, Inc., is a wholly owned subsidiary of The Lubrizol Corporation.
