

ALLERGENIC SUBSTANCES in LUBRIZOL'S FOOD GRADE CARBOMERS (E 1210)

Lubrizol's food grade carbomers (E 1210) listed below are synthetic polymers and do not contain a major food allergen or a protein derived from milk, egg, fish, crustacean shellfish, tree nuts, wheat, peanuts and soybeans. In addition, they do not contain peanuts, soybeans, corn, gluten, celery, mustard, sesame seeds, sulfur dioxide, sulfites, antibiotics, benzoates, hydroxybenzoates, grain-derived alcohols (including ethanol), phenylalanine, sorbates, tartrazine (or other food coloring agents), lupin, mollusks, natural rubber latex or their derivatives.

They do not contain any of the products considered as allergens by Regulation (EU) No 1169/2011 and its amendments, US FDA, and Brazilian RDC26/2015. These substances are not expected to be present. No testing is conducted for the presence of allergens. Risk management processes under cGMP guidelines are used to ensure that these products do not come into contact with allergenic materials at manufacturing facilities.

Carbopol® 71G
Carbopol® 971P
Carbopol® 974P
