

The Lubrizon Custom Solutions business was formed to help customers maintain a competitive edge in their markets by facilitating the manufacture of finished fluids in those situations where outsourcing is more profitable than in-house fluid development. Lubrizon Custom Solutions provides customers with outstanding technical expertise, confidentiality and a global presence through an integrated world-wide infrastructure of manufacturing and distribution. Custom Solutions' core competencies encompass everything needed to augment customers' existing blending or manufacturing capabilities on an interim or long-term basis.

Products and Applications

Lubrizon Custom Solutions can help customers manufacture and distribute a wide range of lubricants in the following areas:

Lubrizon's Custom Solutions for Engine Oils

Include providing heavy-duty diesel oils, passenger car oils, marine oils, motorcycle oils, recreational vehicle oils, power tool oils and stationary engine oils.

Lubrizon's Custom Solutions for Driveline Lubricants

Provide blending and manufacturing for gear oils, manual transmission fluids, automatic transmission fluids, farm tractor transmission/hydraulic fluids, off-highway transmissions and final drives gear oils.

Lubrizon's Custom Solutions for Industrial Fluids

Include hydraulic fluids, industrial gear oils, greases and metalworking fluids.

About Lubrizon

The Lubrizon Corporation, a Berkshire Hathaway company, is a technology-driven global company serving customers in more than 100 countries. We own and operate manufacturing facilities in 17 countries as well as sales and technical offices around the world. Through our global sales and manufacturing networks, we are able to deliver the products and services our customers need, where and when they need them.
