

Lubrizon Advanced Materials focuses on delivering unique formulations that enable the distinct characteristics in our customers' products, such as enhanced durability in athletic apparel, nourishment in hair care products and better color quality in digital printing.

Consumers likely touch Lubrizon Advanced Materials products every day. They are in the facial cleansers and soaps people use, the clothes they wear, on surfaces at home and at work, and in electronics, plumbing materials and various medical devices, medications and drug delivery systems.

We deliver value to our customers through two businesses: Engineered Materials, and Personal, Home and Health Care.

**Engineered Materials** supports customers' growth strategies and programs in primarily industrial applications as well as the sports and recreation market. By leveraging our full technology portfolio, we are able to quickly adapt to changing end-user demands and deliver the right solutions. Lubrizon Engineered Materials businesses include:

- Estane® Engineered Polymers
- TempRite® Engineered Polymers
- Performance Coatings

**Personal, Home and Health Care** enables customer success in the fast-growing consumer- and wellness-oriented markets. We provide a complete and differentiated offering to positively impact consumers' lives in areas such as hair care; bath and shower solutions; dish, fabric and surface care; skin care for cosmetic and pharmaceutical markets; and drug-delivery systems. Personal, Home and Health Care businesses include:

- Personal and Home Care
- Skin Essentials
- LifeSciences

**Segment President:** Rick Tolin  
**Headquarters:** Brecksville, Ohio, USA

## Our Business

**Estane® Engineered Polymers** – Estane® Engineered Polymers provide customers with innovative solutions for the outstanding physical and aesthetic properties they provide in many industrial, sports, recreational and consumer goods applications.

**TempRite® Engineered Polymers** – Lubrizon is the inventor and world leader in chlorinated polyvinyl chloride (CPVC) resins and compounds for hot and cold water plumbing, fire sprinkler systems and industrial solutions for piping systems, storage tanks and scrubbers. Our high-performance technology found in FlowGuard® pipe and fittings, BlazeMaster® fire sprinkler systems and Corzan® industrial systems is also used in a variety of specialty applications that positively impact consumers.

**Performance Coatings** – Lubrizon Performance Coatings brings performance, simplicity and sustainability benefits to customers. Lubrizon is a market-driven innovator of specialty chemicals that solve today's challenges in the paints and coatings, printing and packaging, paper and textiles, plastics and composites, and digital print markets.

**Personal and Home Care** – Lubrizon's Personal and Home Care business delivers solutions that enhance the performance, ease of use and aesthetic benefits of our customers' personal and home care products. Our solutions focus on hair care, bath and shower, fabric, and dish and surface care.

**Skin Essentials** – Lubrizon's Skin Essentials business focuses on developing technologies and formulated solutions for skin care applications, including facial creams, body care lotions and sun protection, baby care, color cosmetics, antiperspirants, pain-management gels and drug delivery.

**LifeSciences** – Lubrizon LifeSciences partners with customers to deliver medical device and pharmaceutical solutions. We combine our polymer expertise, drug formulation capabilities and best-in-class contract manufacturing services to deliver truly innovative end-to-end solutions that address specific consumer needs.

## About Lubrizon

The Lubrizon Corporation, a Berkshire Hathaway company, is a market-driven global company serving customers in more than 100 countries. We own and operate manufacturing facilities in 17 countries, as well as sales and technical offices around the world. Through our global sales and manufacturing networks, we are able to deliver the products and services our customers need, where and when they need them.
