

Lubrizon Advanced Materials delivers unique formulations that improve the performance of our customers' products, including enhanced durability in athletic apparel, nourishment in hair care products and better color quality in digital printing.

We are improving lives by delivering reliability, efficiency or wellness to our customers and consumers in products that are used every day, including personal care solutions, products for the home and workplace, medical devices, and medications.

We understand the specific needs of end users in the consumer and industrial markets we serve. As a global company, we work closely with customers to address regional trends and needs of these markets. Our broad portfolio of solutions positions us to help drive success for our customers.

We deliver value to our customers through two businesses: Engineered Materials, and Personal, Home and Health Care.

**Engineered Materials** supports customers' growth strategies in multiple applications, especially in the industrial and the sports and recreation markets. By leveraging our full technology portfolio, we quickly adapt to changing end-user demands and deliver the right solutions. Lubrizon Engineered Materials businesses include:

- Estane® Engineered Polymers
- TempRite® Engineered Polymers
- Performance Coatings

**Personal, Home and Health Care** enables customer success in the fast-growing consumer- and wellness-oriented markets. We improve product performance and the customer sensory experience in hair care, bath and shower, home care, skin care for cosmetic and pharmaceutical markets, and drug-delivery systems. Personal, Home and Health Care businesses include:

- Personal and Home Care
- Skin Essentials
- LifeSciences

**Segment President:** Rick Tolin

**Headquarters:** Brecksville, Ohio, USA

## Our Business

**Estane® Engineered Polymers** – Estane® Engineered Polymers provide customers with innovative solutions for the outstanding physical and aesthetic properties they provide in many industrial, sports, recreational and consumer goods applications.

**TempRite® Engineered Polymers** – Lubrizon is the inventor and world leader in chlorinated polyvinyl chloride (CPVC) resins and compounds for hot and cold water plumbing, fire sprinkler systems and industrial solutions for piping systems, storage tanks and scrubbers. Our high-performance technology found in FlowGuard® pipe and fittings, BlazeMaster® fire sprinkler systems and Corzan® industrial systems is also used in a variety of specialty applications that positively impact consumers.

**Performance Coatings** – Lubrizon Performance Coatings brings performance, simplicity and sustainability benefits to customers. Lubrizon is a market-driven innovator of specialty chemicals that solve today's challenges in the paints and coatings, printing and packaging, paper and textiles, plastics and composites, and digital print markets.

**Personal and Home Care** – Lubrizon's Personal and Home Care business delivers solutions that enhance the performance, ease of use and aesthetic benefits of our customers' personal and home care products. Our solutions focus on hair care, bath and shower, fabric, and dish and surface care.

**Skin Essentials** – Lubrizon's Skin Essentials business focuses on developing technologies and formulated solutions for skin care applications. Combining Lubrizon's scientific knowledge of skin care and dermal care, ingredients expertise, formulation capabilities and global supply chain network, we formulate functional ingredients that improve the performance of cosmetic and topical over-the-counter products while delivering a delightful sensorial experience to the consumer.

**LifeSciences** – Lubrizon LifeSciences is a preferred Contract Development and Manufacturing Organization (CDMO) for complex pharmaceuticals and high-end medical devices. We combine our polymer expertise, product development capabilities and best-in-class contract manufacturing services to deliver end-to-end solutions that address specific consumer needs in the pharmaceutical and medical device markets.

## About Lubrizon

The Lubrizon Corporation, a Berkshire Hathaway company, is a market-driven global company serving customers in more than 100 countries. We own and operate manufacturing facilities in 17 countries, as well as sales and technical offices around the world. Through our global sales and manufacturing networks, we are able to deliver the products and services our customers need, where and when they need them.
