# TURBOSET® ULTRA ECO

## ULTRA LOW-VOC WATER-BASED POLYURETHANE DISPERSION

Turboset Ultra Eco gives superior protection to wood floors, even in the most demanding applications — sports flooring and high-traffic residential and commercial spaces. This dispersion is NMP/NEP-free technology allowing lower-VOC formulations while offering impressive durability with excellent chemical and water resistance. Builders can use Turboset Ultra Eco to meet high performance specifications requiring lower VOC.

### Excellent Performance and Durability

Turboset Ultra Eco extends coating life thanks to its outstanding resistance to abrasion, marring and scratching. For easier maintenance, Turboset Ultra Eco also provides superior resistance to black heel marks and offers excellent adhesion to most solvent-based wood stains.

### Ultra Low VOCs and Production Ease

With its lower VOC content, Turboset Ultra Eco meets stringent compliance standards for manufacturers worldwide with the added benefits of being NMP- and NEP-free. Turboset Ultra Eco is also self-crosslinking, which means product is ready to use at point of application—helping to streamline production. After application, Turboset Ultra Eco dries quickly, resulting in low odor and fast return to service.

### Chemical and Water Resistance

Floors are subject to more than just foot traffic. That is why Turboset Ultra Eco strengthens stain resistance and wood will not darken from spills. It also offers good resistance to many of the fluids wood floors encounter, including water, wine, beer and other damaging fluids, thereby reducing the need for re-coating.

## WHAT WE ADD MAKES THE DIFFERENCE.™

- DURABLE, BEAUTIFUL PROTECTION FOR WOOD FLOORS
- SUITABLE FOR SPORTS FLOORS, COMMERCIAL SPACES AND HOMES
- ULTRA LOW VOC
- SELF-CROSSLINKING
- ACHIEVES HIGH GLOSS FINISH, UP TO 90 GLOSS UNITS

## FEATURES & BENEFITS

- LOWER VOC WITHOUT SACRIFICING PERFORMANCE
- NMP- AND NEP-FREE
- BLACK HEEL MARK, ABRASION, AND MAR RESISTANCE FOR GREATER DURABILITY
- STAIN RESISTANT
- FAST DRY TIMES

## Turboset® Ultra Eco – Black Heel Mark Resistance

Turboset® Ultra Eco      Competitive Polymer

### Benefit to Customer:

Improved selling point of the product; more satisfied customer.

### Benefit to End-User:

Improved appearance for longer period of time.
